

Jiwon Kim

Seoul, South Korea · (+82) 10-6361-9410
kim.jiwon@ewha.ac.kr

Last Updated: May 2026

RESEARCH INTERESTS

Methodologies: Combinatorial Optimization, Sequential Decision Making, Reinforcement Learning.

Applications: Logistics & Supply Chain Management, Decision-Making under Uncertainty.

EDUCATION

Ewha Womans University, Seoul, South Korea *Sep 2025 – Present*
M.A. Student in Business Administration (Management Decision Science)

Ewha Womans University, Seoul, South Korea *Aug 2025*
B.B.A. in Business Administration & B.S. in Statistics (*Double Major*)

RESEARCH EXPERIENCE

Graduate Researcher, AAPL Lab, Ewha Womans University *Sep 2025 – Present*
Advisor: Prof. Yunchool Kang

- *Two-Stage Matheuristic for Transportation Volume Reallocation*
 - Formulated combinatorial optimization problems as Markov Decision Processes (MDP).
 - Implemented Monte Carlo Tree Search (MCTS) in Python.
 - Developed hybrid optimization methods integrating MILP and tree search heuristics.
- *Hierarchical Synthetic Persona Generation Method Using LLM and Multimodal Inputs*
 - Conducted literature reviews and experimental evaluations of synthetic persona pipelines.
 - Co-inventor on a Korean patent application (No. 10-2025-0212331, *pending*).

Research Assistant, School of Business, Ewha Womans University *Sep 2025 – Mar 2026*
Advisor: Prof. Daiki Min

- Investigated the validity of large language model prompting for vehicle routing problems.
Kim, J. & Min, D. Assessing the Validity of Prompting Large Language Models for Vehicle Routing Problems. *Korean Management Science Review (KCI)*. *Accepted, 2026*.

TECHNICAL SKILLS

Programming Languages: Python, R

Optimization & ML Tools: Gurobi, OR-Tools, PyVRP, PyTorch

RELEVANT COURSEWORK

Optimization Theory, Sequential Decision Making, Bayesian Statistics, Operations Management, Supply Chain Management, Data Science.
